PRO-LOK

Why Use Anything Else?

2008-2009 Catalog

Professional Quality Tools

Why Use Anything Else?

Pro-Lok®
is the leading manufacturer in the locksmith industry of auto entry tools, full color manuals, inspection lights, installation tools and punch key machines. With over 25 years in the locksmith industry we have the experience and staff to provide the quality products you want. Pro-Lok® was started by locksmiths who owned locksmith shops and ran service calls unlocking cars, installing locks, punching keys and opening safes. There is a big difference between actually running thousands of service calls and seeing first hand the problems you run into, verses our competition, most who have never been on a real service call.

Table of Contents

Our logo proudly states "Professional Quality Tools".

As our company has grown over the last 20+ years, our goal has been not just to maintain, but to actually improve the quality of each and every one of the products we make. Our company slogan, "Why Use Anything Else?" is not just something we say, it's something we believe in very strongly.

Patented Tool Solutions

Problem #1: *The Tools Slide and Slip Along the Linkage*

It has been difficult at times to maneuver the locking linkage. Once the end of the tool is placed on the lock linkage, the tool wants to slip along the smooth surface of the linkage as opposed to moving the linkage to the unlocked position. The reason for this is simple. The round smooth surface of the car opening tool is being placed on the round smooth surface of the lock linkage. Two round, smooth surfaces, placed together do not work well. This works against your efforts to maneuver the linkage to the unlocked position.

Solution: *Knurl the part of the tool that makes contact with the lock linkage.*

Tools that are designed to couple or seat on the lock linkage are knurled before our flattening process.

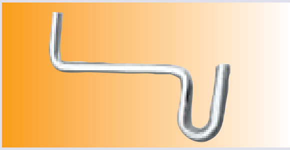

This process provides you with a smooth tool on the sides with a textured surface that makes contact with the smooth locking linkage.

The textured surface of the tool makes it easier to maneuver the linkage as opposed to slipping or sliding along the linkage. Less strength is required.

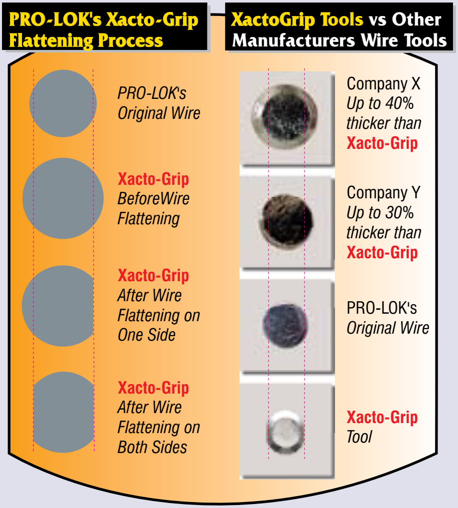

Knurling the end of the tool

Problem #2: *Tools Are Either Too Big or Too Weak*

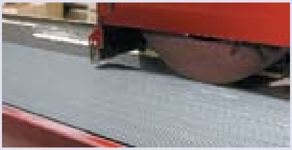

Over the last few years, car manufacturers have increased the quality and materials used in making car doors. Their efforts have created tighter doors and less space between the weather stripping and the glass. The tightness created has made it increasingly difficult to insert your car opening tools between the glass and weather stripping in order to lower the tool into the door cavity. When you are able to insert your tool, it becomes more difficult to maneuver your tool around due to tightness. The solution sounds simple. Make tools thinner to make them easier to enter the door cavity, right? The problem then becomes the strength of the tool. By making the tool thinner the tool looses its stiffness and strength. Without the strength, the linkage becomes difficult if not impossible to maneuver.

Solution: *PRO-LOK has changed the size and shape of 25 of its car opening tools.*

- Only the highest grade music wire is used.
- We start with a thicker diameter wire and flatten two sides.
- The tools are shaped and then heat treated (some tools twice) for additional strength and breakage protection.

The result is stronger but thinner tools. The flat side of the tool is inserted between the weather stripping and the glass. When the tool is rotated, you have a stronger tool.

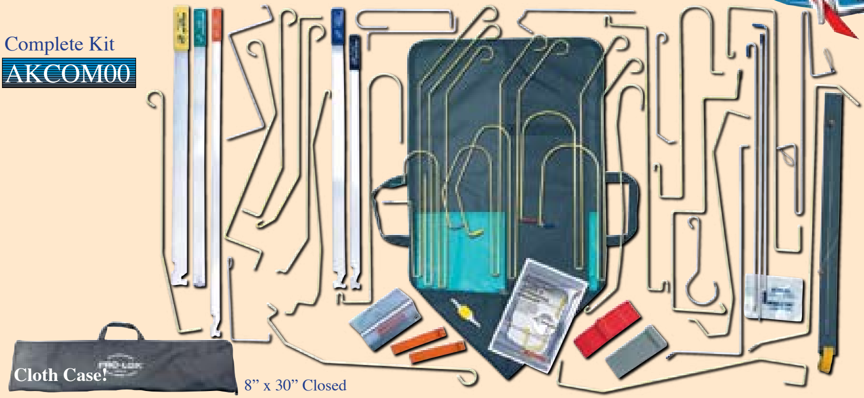

Flattening the wire

Auto Opening Kits

Complete Kit

AKCOM00

8" x 30" Closed

Never be without the right tool again! When you just can't get your fill of car opening tools, get the Complete Tool Kit. This kit contains 5 Slim Jims, 7 MCOT tools, long reach tool and all of our specialty tools along with a selection of wedges in our deluxe zippered cordura cloth case with divided sections inside and sturdy handles for carrying and a 52 page Tool Usage and Instruction Booklet.

Slim Jim Kit

AKSJ

Finally, a kit for Slim Jim lover. This Slim Jim set is an invaluable asset to any lockout technician's tool kit. This kit gives you the choice of 5 different styles of Slim Jims to choose from. Whether you need short or long, wide or narrow or a clamp type, it's in this kit. Each Slim Jim is manufactured from the highest quality, round edged stainless steel available. These Slim Jims will not rust and they will hold the bend necessary to reach and manipulate lock linkages. Packaged in a slender vinyl snap top case with a 52 page Tool Usage and Instruction Booklet. 6 piece set.
Tools: AO10, AO11, AO25, AO30, AOCO
Case: AO51

Quick Change™ Long Reach Tool

NO COUPLERS

A coupler is commonly used to screw 2 pieces of tool together to make one longer tool. A coupler needs to be made of a considerably thicker diameter than the material making up the two tool pieces. The Pro-Lok design does not use couplers. One half of the tool screws directly into the other half (without a coupler). This feature allows for a smooth and smaller diameter tool. This is a important feature because you won't have to wedge the door or window wider to allow room for the coupler.

5 PIECE "QUICK CHANGE"

Our patent pending tool is unlike any other. Different vehicles and opening methods may require or at the very least are easier to perform with the right shape or designed "tool body". Our ¼" diameter "handle" provides firm and stiff tool control and attaches to your choice of 3 different "tool bodies" and one longer reach "extension". You simply choose the "tool body" that will best suit the vehicle and opening method that you are performing and screw it directly into the handle. In some instances, if you need longer reach from your tool, the 18" extension screws between the"handle" and the "tool body" to make your long reach tool up to 67" long.

COMPACT

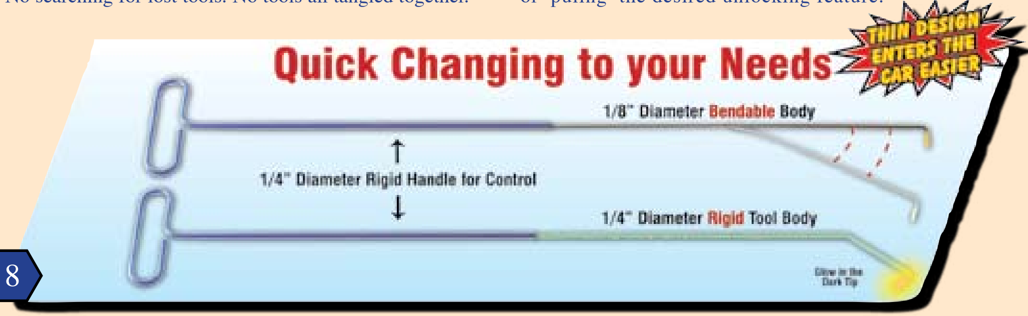

You will look very professional with the best compact case available. Not just for easy storage in your truck or car but also providing a custom place for each tool. No searching for lost tools. No tools all tangled together.

EXTRA LENGTH WHEN NEEDED

The shorter tool, just the handle and the body, is used for most openings. It provides you with better control and use of the tool. Reaching the locking button, the console, or across the car is impossible with some tools. Some vehicles require a little extra length in your Long Reach Tool. Pro-Lok's Quick Change Long Reach Tool provides you the best of both worlds. When you are faced with a vehicle that requires a little more length, simply screw the 18" "extension" between the "handle" and the "body".

GLOW IN THE DARK TIP

The rubber protective tip on PRO-LOK's 1/4" tool body is made of a specialty formulated glow in the dark material. This feature comes in handy on some openings at night. You can easily see the tip of the tool guiding it inside of the vehicle while pushing or puling the desired unlocking feature.

Ultra Combo Kit

AKUC

Case Size
28” L x 9” W x 4-1/2” H

AKUC: ***18 Piece Combo Kit***

The combo kit is a mix of the most popular traditional car opening tools snuggly fit into the lid of the case as well as our assortment of “Quick Change” Long Reach Tools custom fit into the bottom of the specialty molded case. The selection of traditional tools includes our most popular stainless steel round edged Slim Jim, three of our most popular patented Xacto Grip tools including our Double Ended Hook and Lift Tool, Double Ended Slide Lock Tool, Wide Panel MCOT Under the Window Tool, Protective Tool Sleeve, 52 page Tool Usage and Instruction Booklet, and Wedge Starter and Window Protector. The Long Reach Tools custom fit into the bottom of the case include the 5-pc Long Reach Set featuring the ¼”heavy duty Handle, ¼” heavy duty rigid Tool Body, 1/8” bendable Hook Tool Body, 1/8” bendable “L” Hook Tool Body, heavy duty extension (when longer reach is needed), 2 rubber wedges, 2 plastic wedges, heavy duty Pump Wedge and Plastic Tool Sleeve.

Tools: AO25, AO35, AO38, AO39, AO42-QC1(Consisting of : AO42-QC1-01, AO42-QC1-02, AO42-QC1-03), AO42-QC2 (Consisting of : AO42A, AO42B), AO42SL, AO64, AO65-A1
Book: AO95 Wedge: AO65, Set of A064, AO67 (2)

Ultra Long Reach Kit

Auto Opening Tools

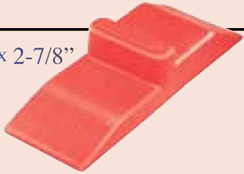

Tools to last a lifetime!

PRO-LOK® Slim Jims are manufactured of round edged stainless steel, the highest quality material available. Our Slim Jims will hold the bend desired and they won't rust! PRO-LOK® Wire Tools are manufactured from oil tempered steel. They are formed to the desired bend, heat treated and then plated with high-gloss zinc to prevent rust or corrosion, and then heat treated again. Our wire tools have "memory" which means that they won't lose their shape in the door. Our wire tools are strong and durable, yet small in diameter to allow you easy entry into those vehicles with tight weather-stripping. All of our tools are field tested by our technicians. Made in the USA. Full Color Instructions included. Lifetime warranty against manufacturer's defect.

Wedges

Double Sided Wedge
AO60

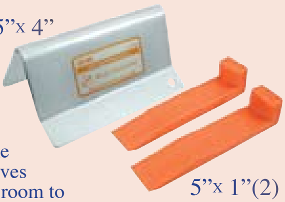

6"x 2-7/8"

Made of high impact plastic. Different height on each side allows you to adjust to doors with varying flexibility.

Clear View Wedge Set
AO63

5"x 4"

5"x 1"(2)

3 piece wedge system designed to hold back the weather-stripping and gives maximum visibility and room to maneuver your tools. A must have for easy opening. **Includes two AO64 wedges.**

Pump Wedge
AO65

Window wedge for auto opening. The pump wedge is an inflatable wedge made of non-marring vinyl material. Rounded corners for easy entry.

Bag only 6"x 6-1/2"
w/Pump 13"x 6-1/2"

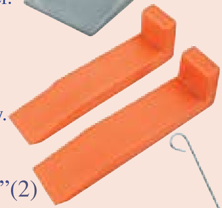

Grey Rubber Wedge
AO61

5"x 2"

Made of heavy-duty but soft non-marking high grade rubber.

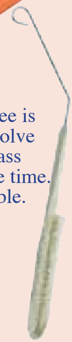

Mini Rubber Wedge
AO64

These plastic wedges make wedging even tight doors easy. Easily inserted by utilizing a unique crown on the wedge.

5"x 1"(2)

Window Wiper
AO66

Ever try to look into the door cavity and all you see is the reflection off of the dust? This new tool will solve this problem. Insert the tool under the window glass and wipe the glass clean on both sides at the same time. Cloth cover is removable, washable and replaceable. Part # for replacement cover ZAO66SL

Mini Rubber Wedge
AO67

5"x 1"

Made of a heavy-duty but soft non-marking high grade rubber. Highly recommended when using Long Arm Tools or traditional wire tools.

Slim Jims

All Slim Jims are not created equal. All of our Slim Jims are manufactured of round edged stainless steel. They will hold the bend desired and they won't rust! May be used on a wide variety of vehicles with horizontal or vertical linkage. Made in USA.

The Original Slim Jim
AO10

This is the Original Slim Jim and still the best. 3/4" x 22-1/2" x .032 thickness. Stainless steel.

Super Slim Jim
AO11

Wider and stiffer than the original. 1-1/4" x 25" x .032 thickness. Stainless steel..

Long Slim Jim
AO30

Be able to reach even the deepest linkages. Just like the original, only longer. 3/4" x 29-1/2" x .032 thickness. Stainless steel..

Double Ended Slim Jim
AO10-Combo

Has a notch Slim Jim at one end and a comb at the other end. 3/4" x 22-1/2" x .032 thickness. Stainless steel.

E-Z Jim
AO25

Medium thickness Slim Jim. 1" x 25" x .040 thickness. Stainless steel.

Clamp-On Slim Jim
AOCO

Push the end of the tool onto the linkage to lock on automatically. 1" x 25" x .040 thickness. Stainless steel.

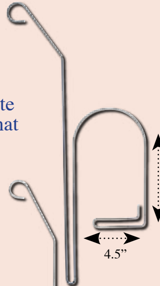

MCOT's

MULTI CAR OPENING TOOLS (MCOT) - MCOT's are designed to enter the vehicle under the window and brought up inside the vehicle to manipulate inside lock mechanism.

MCOT-Handle Opener Tool

AO24

Designed to access and manipulate closed pull handles on vehicles that have stiff handle springs, which require a higher pull strength.
Xacto-Grip Flattened.

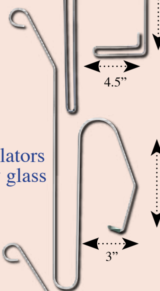

AO24

MCOT-Fat Tool

AO28

Designed to bypass window regulators that run the length of the window glass which inhibits the entry of the original type MCOT tools.
Xacto-Grip Flattened

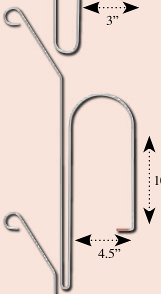

AO28

MCOT-Wide Extra Long

AO32

Has a wide reach and extra long length for even more versatility.
Xacto-Grip Flattened.

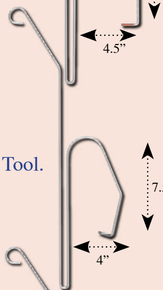

AO32

MCOT-Narrow

AO34

The original Multi-Car Opening Tool. Narrow width and short reach.
Xacto-Grip Flattened.

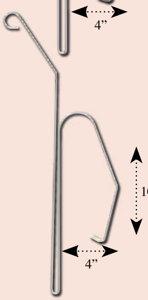

AO34

MCOT-Long

AO36

Stretched for maximum reach. Long and narrow MCOT tool. For hard to reach activators.
Xacto-Grip Flattened.

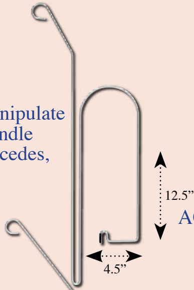

AO36

MCOT-Handle Pull Tool

AO27

Designed to access and manipulate pull handles with stiffer handle springs seen in BMW, Mercedes, & Land Rovers.
Xacto-Grip Flattened.

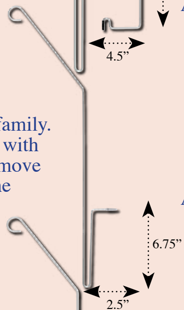

AO27

MCOT-Button Lifter

AO31

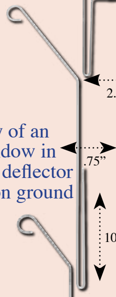

A variation of the MCOT family. Designed to open vehicles with raised vertical buttons. Remove the protective cap to use the precision ground tip.
Xacto-Grip Flattened.

AO31

MCOT-Separator

AO33

The Separator allows entry of an MCOT tool under the window in cars where the inner panel deflector inhibits entry. The precision ground tip makes entry easy.
Xacto-Grip Flattened.

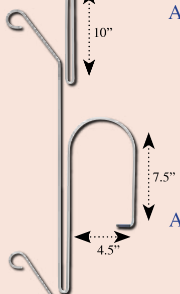

AO33

MCOT-Wide

AO35

The wide MCOT is for cars with wide door panels.
Xacto-Grip Flattened.

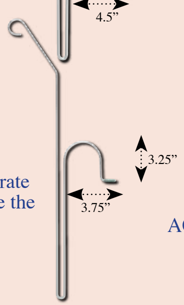

AO35

MCOT-Button Finger

AO37

The MCOT modified to operate vertical button cars. Remove the protective cap to use the precision ground tip.
Xacto-Grip Flattened.

AO37

Auto Opening Tools

Specialty Tools

Chrysler Tool

AO03

Works like magic. Enters the lock just like a key. Works on all Chrysler/Dodge with a cylinder drain hole.

Porsche 928 Tool

AO17

Designed to open porsche 928 on the driver's door quickly and professionally.

Gas Cap Key

AO04

Use this tool to open almost any locked gas cap. Designed to be used like a rocker pick.

GM S-10 Tool

AO26

Designed to open 80's model GM trucks like the S-10 Blazer and GMC Jimmy.

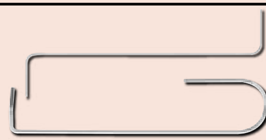

Inside Vehicle

Vent Window 2pc Set

AO14

Operate the vent windows on car, truck, and van doors. 2 pc set.

Long Reach Tool

AO42

Across the car entry tool. Allows you to reach inside a car to an activator on the opposite side of the car or to retrieve the keys. Extends up to 76" with use of middle section.

Long Reach Tool Accessory

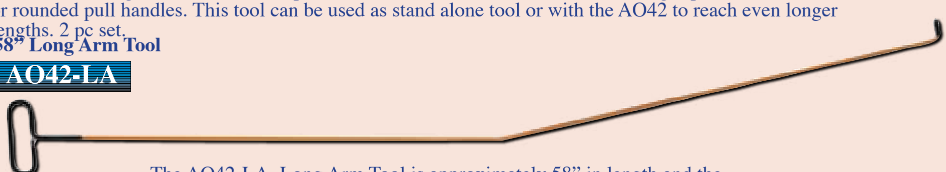

AO42-A1

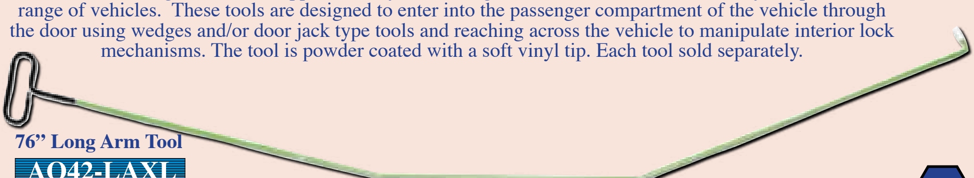

Ideal for reaching curved or rounded pull handles that are located in recessed, or tight places with carved or rounded pull handles. This tool can be used as stand alone tool or with the AO42 to reach even longer lengths. 2 pc set.

58" Long Arm Tool

AO42-LA

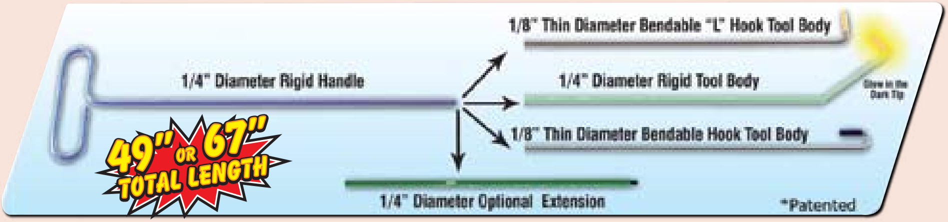

The AO42-LA -Long Arm Tool is approximately 58" in length and the AO42-LAXL Long Arm Tool is approximately 76" in length. Both tools offer the versatility to open a wide range of vehicles. These tools are designed to enter into the passenger compartment of the vehicle through the door using wedges and/or door jack type tools and reaching across the vehicle to manipulate interior lock mechanisms. The tool is powder coated with a soft vinyl tip. Each tool sold separately.

76" Long Arm Tool

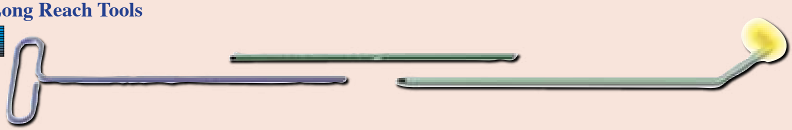

AO42-LAXL

Inside Vehicle

Quick Change™ Long Reach Tools

AO42-QC1

The AO42-QC1 gives you the versatility to unlock many vehicles on the road. The multi-piece Quick Change tool is designed to enter into the passenger compartment of the vehicle through the door using wedges and/or door jack type tools. The specialty formulated Glow-in-the-Dark tip comes in handy on some openings at night. When extra length is needed, simply use the 18" "extension" between the rigid "handle" and rigid tool "body". Our seamless design, not needing a bulky coupler, can reach up to 67" and can be stored easily. The AO42-QC2 is a convienant accessory offering more accessibility.

Quick Change™ Long Reach Accessory

AO42-QC2

The AO42-QC2 is a convenient addition to the AO42-QC1. The thin diameter tool bodies screw directly into the rigid "handle" or 18" "extension" without the use of a bulky coupler. The thinner material may provide less wedging or stress on the vehicle. It is easier to slightly bend the thin diameter bodies to pull or push on the desired unlocking feature.

Long Reach Tool Sleeve

AO42SL

Plastic sleeve that works with any tool to protect the glass, weatherstripping and edge of the door while the tool is in use.

5"x 4"

Wedge Starter & Window Protector

AO65-A1

Initialize the easier insertion of a wedge and protects window glass from scratches.

10"x 6"

Loop-D-Loop™ Tool

AO45

This unique double ended tool offers a new approach to lockouts on many BMWs, Mercedes, Volvos and Volkswagens among others. Fed in under the window, the "loop" is fixed around the straight or mushroom style button head and pulled tight, then lifted up to unlock. Heavy duty coated wire, securely crimped.

Euro Strip

AO85

Flexible tools allows you to bypass doors on Mercedes, BMW, Volvo, and other vehicles. Machined cut-out with heavy duty rubberband for extra strength.

Tool Usage & Instruction Booklet

AO95

Resource booklet for understanding different auto locking systems & how to use our tools on them. 52 pages.

Specialty linkage Tools

All Pro-Lok wire tools are made with the finest materials available. Smaller diameter wire allows easier insertion and manueverability of tools. All tools are high gloss zinc plated to prevent rust.

Slide Lock Tool

AO01

Two tools in one. Opens both horizontal locking devices and vertical buttons.
Xacto-Grip Knurled & Flattened.

Astro Tool

AO07

Double ended tool. Opens the Chevy Astro Van, Safari Van, and several GM cars. The hook and reach make this double ended tool extremely useful.
Xacto-Grip Knurled & Flattened.

Under the Handle Tool

AO13

Used to manipulate horizontal and vertical linkages accessed behind "pull up" type exterior handles.

Spring-L Tool

AO18

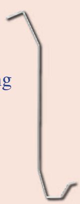

One of the most versatile tools made. Used to lift and push bell cranks on many different cars. Xacto-Grip Flattened.

Toyota Tool

AO21

Double ended tool. Perfect for opening various vehicles with the metal or plastic shield guarding the bell crank.
Xacto-Grip Flattened.

Honda Tool

AO38

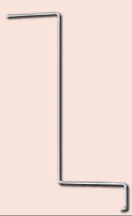

Double ended tool. Used to open all Hondas and a number of other foreign & domestic vehicles with both horizontal or vertical rods.
Xacto-Grip Knurled & Flattened.

GM "L" Tool

AO40

Double ended tool. Tool designed to gain quick entry into large bodied foreign and domestic vehicles.

Round Jim

AO12

Specially designed to open cars with exposed bellcranks. Also used on Volvo 960 & S90/V90, Porsche Boxter/911 1998-'99.
Xacto-Grip Flattened.

Corvette Tool

AO16

For '84-'96 Corvettes.
No wedging required.
Xacto-Grip Flattened.

Slide Jim Tool

AO20

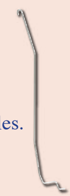

Double ended tool. "L" end is used to manipulate bellcranks. "U" end is used to manipulate horizontal rods with a stepped or offset angle.
Xacto-Grip Flattened.

Dual Tool

AO29

Two tools in one. Opens many types of foreign & domestic vehicles.
Xacto-Grip Knurled & Flattened.

Double Slide Tool

AO39

Double ended tool. Short reach for narrow doors combined with reverse tip for reaching under horizontal rods. Very wide usage.
Xacto-Grip Knurled & Flattened.

Behind the Glass Tool

AO41

Double ended tool. This tool solves the problem of gaining access to horizontal rods located above & behind the glass.
Xacto-Grip Knurled & Flattened.

Auto Opening Tools

Specialty Linkage Tools

Back-Flip Tool

AO43

Double ended tool. The Back-Facing tip reaches above and behind the plastic guard plates on many Hondas and successfully opens a variety of new GM cars. The Flip end opens late Toyota models. Xacto-Grip Knurled & Flattened.

Cruiser/Kompressor Tool

AO47

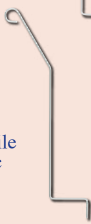

Double ended tool. The short end opens many Land Cruisers & Lexus LX450. The long end opens the Mercedes SLK 230 Kompressor.

Double "L" Tool

AO49

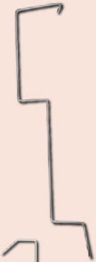

The "Double L" end opens GM "Dust Buster" minivans, Oldsmobile Silhouette, Chevy Venture, Pontiac Montana, and other cars. Xacto-Grip Knurled & Flattened.

Camry/Lexus Tool

AO44

Double ended tool. One ends opens many Toyota Camrys. The other end offers entry into the rear door of the Lexus LS 400 sedans. Xacto-Grip Flattened.

Audi A6/A8 Tool

AO48

Double ended tool. The modified "L" end is used to open the Audi A6, Pontiac Firebird. The "U" end is used to open the Audi A8. Xacto-Grip Flattened.

GM Camaro Tool

AO84

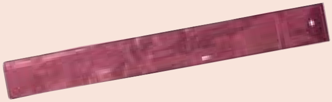

Specially designed to open '82-'92 Camaros, Firebirds, and many Saabs. Xacto-Grip Flattened.

CASES

Small Vinyl Case

AO51

3" x 30" vinyl storage case with snap closure.

Heavy Duty Cloth Case

AO53

Handy tool case. Heavy duty cordura cloth with velcro closures. 3 pockets for storage. 8-1/2" x 26"

Deluxe Zippered Case

AO56

Two sturdy handles, four storage compartment, and a full length zipper. Unique hook-in loop "Tool Positioners" keep your wire tools in place

Large Vinyl Case

AO52

8" x 27" vinyl storage case with zip-lock type closure.

Folding Cloth Case

AO55

Brief case style carrying case provides maximum storage while maintaining your tools in neat order. 10 individual pockets. Heavy duty cordura cloth. 16"x 27" (Folded)

(Open)
Tools not Included

Inspection Lights

Lights are a necessity when opening cars today!

Lights allow you to find the linkage rod guard plates, identify sensitive components inside the door, determine your target area, minimize the chance of damage or wire tangles, make your job go quicker and maximize your ability to open a car professionally. In addition to car opening, many other uses will be found once you own one of these lights. Safe work, auto repair work, general machine inspection and confined space illumination are only a few of the wide range of applications for these lights. See what you've been missing.

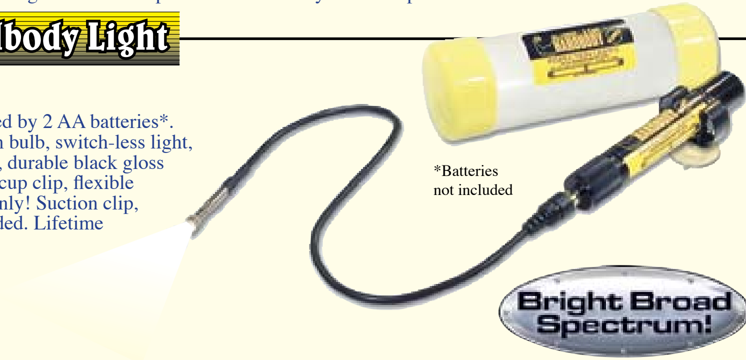

HardBody™ Lights

We designed the HARDBODY™ lights with you in mind. The machined high grade aluminum body is mated with a flexible 18" coaxial wand through a simple RCA connection. The elimination of a switch means a trouble-free light for you. The slim bulb allows you into tight spots to avoid wire tangles and trouble spots. These lights come complete with a bulb, suction cup clip and a protective storage case. Available in two versions: 2 cell-Broad Spectrum 3V bulb and 3 cell-Krypton 4.5V bulb. These lights are an inexpensive addition to your set of professional tools.

2 AA Cell Hardbody Light

AL10500

3v car opening light powered by 2 AA batteries*. Bright Broad Spectrum slim bulb, switch-less light, heavy-duty aluminum body, durable black gloss powder coat finish, suction cup clip, flexible wand. 6v Halogen Lights

When it comes to brilliance, there is no competition. The 1 amp draw of this halogen bulb is so powerful, ordinary batteries couldn't handle it, so we found something that could... your Makita® drill battery, or your vehicle's cigarette lighter socket. See inside the door, even in direct sunlight. These lights provide unparalleled visibility. Use your existing Makita® rechargeable drill battery (7.2v, 9.2v, or 12v) for power. This light gives you the brightest light in the industry. Just snap your battery into the adapter and plug the cord into the wand. The light is inserted right alongside the window wedge, lowered into the door and moved into position. The handy belt clip on the adapter provides hands-free operation.

7.2v Makita® Powered Light Kit

AL3700

Contains AL3000 & AL3007 with 6v halogen bulb and storage case.
Requires 7.2v Makita® battery*.
90 day warranty (excluding bulb).

9.6v Makita® Powered Light Kit

AL3900

Contains AL3000 & AL3009 with 6v halogen bulb and storage case.
Requires 9.6v Makita® battery*.
90 day warranty
(excluding bulb).

*Batteries not included

6v Light Probe

AL3000

With 6v halogen bulb.
Use with AL3007 or AL3009 for power.
90 day warranty
(excluding bulb).

7.2v Makita Battery Holder

AL3007

Connects to 7.2v Makita® batteries for power supply.
Use with AL3000 light.

9.6v Makita® Battery Holder

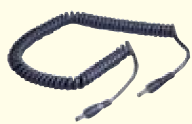

AL3009

Connects to 9.6v Makita® batteries for power supply.
Use with AL3000 light.

6' Coiled Cord

AL3034

Replacement cord for AL3007 and AL3009

6v Halogen Bulb

AL12120

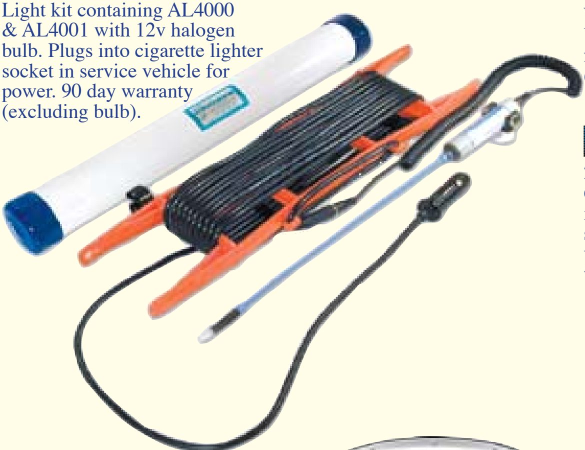

Replacement bulb for AL3000
(red tipped bottom)

12v Halogen Lights

12v Light Kit
AL4100

Light kit containing AL4000 & AL4001 with 12v halogen bulb. Plugs into cigarette lighter socket in service vehicle for power. 90 day warranty (excluding bulb).

Super Bright Halogen

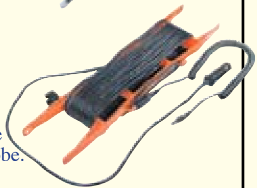

12v Light Probe
AL4000

With 12v Halogen bulb. Use with AL4001 or AL4012 for power. 90 day warranty (excluding bulb).

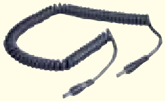

30' Flat Reel Cord
AL4001

24' flat reel cord plus 6" coiled cord. Plugs into cigarette lighter socket in service vehicle for power. Use with AL4000 light probe.

6' Coiled Cord
AL3034

Replacement cord for AL4001.

12v Halogen Bulb
AL12130

Replacement bulb for AL4000. light probe (clear tipped bottom).

12v Makita Powered Light Kit
AL4200

Light kit containing AL4000 & AL4012 with 12v halogen bulb. Requires 12v Makita® battery*. 90 day warranty (excluding bulb).

Comes with protective storage case & suction cup clip

BP201WK	WESLOCK	All Weslock Cylinders

Factory Service

Is your Blue Punch Key Machine not working accurately? Is it just not cutting as easily as it used to? Is your "cutter" dull? Did you lose or misplace your code bar? Does your machine need to be adjusted for spacing or depth?

If you are experiencing any of these problems, call PRO-LOK® for factory service. Regardless of who manufactured your machine or how old it is, we can fix it up for you! Return your machine for a factory rebuild and get your machine back in almost like-new condition. See below for your choice of repair/upgrade options to choose from.

Prior to returning your machine, call PRO-LOK® for a BPR# (Blue Punch Repair #). Be prepared to provide the Style of Machine, Serial # of Your Machine, and the Type of Service You Are Requesting. Be sure to send your code bar with your machine. The machine cannot be adjusted without it.

Basic Service

BPSER

Includes: Dis-assembly, cleaning, lubricating, finish hardware, re-adjustment to factory specifications and all labor. (Parts will be at an additional price.) 90 Day Warranty parts and labor.

Concersion

BPCONV

When you need your machine converted from one manufacturer's keyway to another (i.e.: SC to IC)
Includes: All parts normally required to convert from one style to another, top jaw/handle assembly upgrade, finish hardware, re-adjustment to factory specifications and all labor. Any repair or replacement of other parts will be at an additional charge. 90 Day Warranty parts and labor.

Factory Rebuild

BPBLD

Includes: Dis-assembly, cleaning, lubricating, a completely new engine, finish hardware, re-adjustment to factory specifications and all labor. (Does not include casted parts or code bar). This service is done on older Blue Punch machines regardless of who manufactured them or how they old are. 90 Day Warranty parts and labor.

Top Jaw/Handle Assembly Upgrades

New and improved adjustable ratchet lever handle design and installation hardware. Advantages of the upgrade include easier key clamping, tighter key clamping, and a heavy duty top jaw 3 times heavier than the old style. Available for all styles of Blue Punch Machines..

Key Decoders

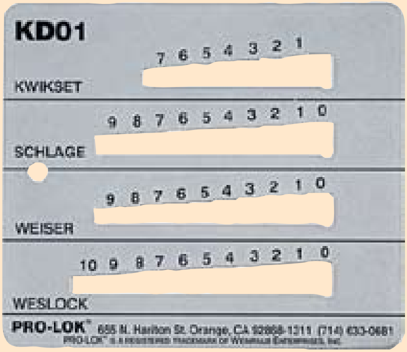

Heavy Duty Stainless Steel Key Decoders

Top quality stainless steel provides strength and durability for these individual key decoders. Designed with “Sure Stop” steps, each increment reflects factory specifications & tolerances. Decode cut depths on the most popular keys. For rekeying & code cutting.

Key Decoder

KD01

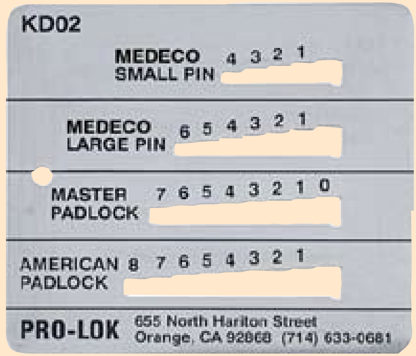

Decoder for Kwikset, Schlage, Weiser, & Weslock

Key Decoder

KD02

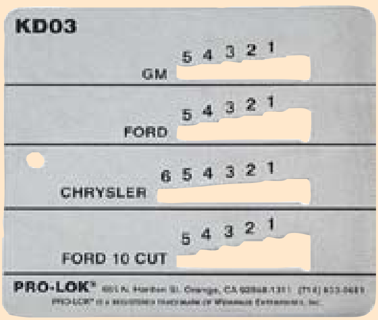

Decoder for Medeco small pin, Medeco large pin, Master Padlock, & American Padlock

Key Decoder

KD03

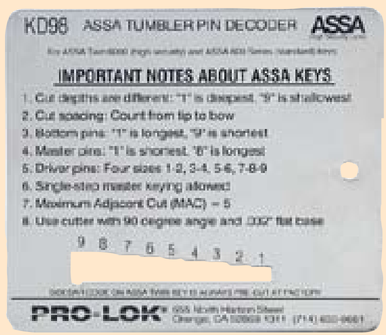

Decoder for GM, Ford, Chrysler, & Ford 10 Cut

Key Decoder

KD98

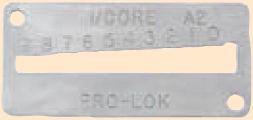

Decoder for ASSA

Key Decoder

KDIC

Decoder for Best/Falcon & other I/C keys using standard A2 increments

Key Decoder

KDSC

Decoder for all Schlage & other (Schlage type) keys using factory increments.

Key Hooks & Tags

*H*aving owned locksmith stores, we set out to solve several problems while saving money at the same time. Our mobile vans were constantly having key blanks fall off of the hooks while driving over speed bumps or turning corners. The blanks that fell to the floor were either lost or cumbersome to sort and re-hang. Our no-spill key hooks solved these problems. Never again will you suffer these inconveniences. These key hooks also allow you to color code your keyboard.

Our key tags present a professional image to your customers while assisting with inventory control. They also allow you to highlight keys with special or different pricing. These pre-printed tags are clear, easy to read and offer you comparison information between different manufacturers. If you are setting up a new keyboard these key tags will save you hours of research and handwriting blank tags.

Get Organized

Key Hooks

Keys won't fall off of these hooks!
Pliable, durable, colorful no-spill key hooks. Unique design securely holds 25-30 blanks per hook and won't allow your key blanks to come off until you want them off. Special formula material eliminates breaking and drooping. Use with our Key Tag System for the ultimate in key board organization.

Blue Key Hooks
KHBL

100 hooks per bag. Fits 1/8" pegboard.

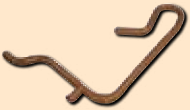

Black Key Hooks
KHBLK

100 hooks per bag. Fits 1/8" pegboard.

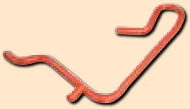

Brown Key Hooks
KHBR

100 hooks per bag. Fits 1/8" pegboard.

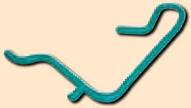

Red Key Hooks
KHRE

100 hooks per bag. Fits 1/8" pegboard.

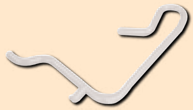

Teal Key Hooks
KHTE

100 hooks per bag. Fits 1/8" pegboard.

White Key Hooks
KHWH

100 hooks per bag. Fits 1/8" pegboard.

Key Tags

Domestic Key Tag System
LT420

Key tags to organize residential & commercial keys on your keyboard. Used behind key hooks. Set contains over 800 tags. Lists keyblank manufacturer & part number for reordering blanks.

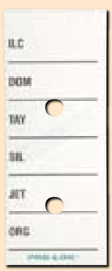

Auto Key Tag System
LT421

White Blank Tag System
LT422

Make your own key tags. Goes behind the hooks on your key-board. Set contains 96 blank tags for you to fill out.

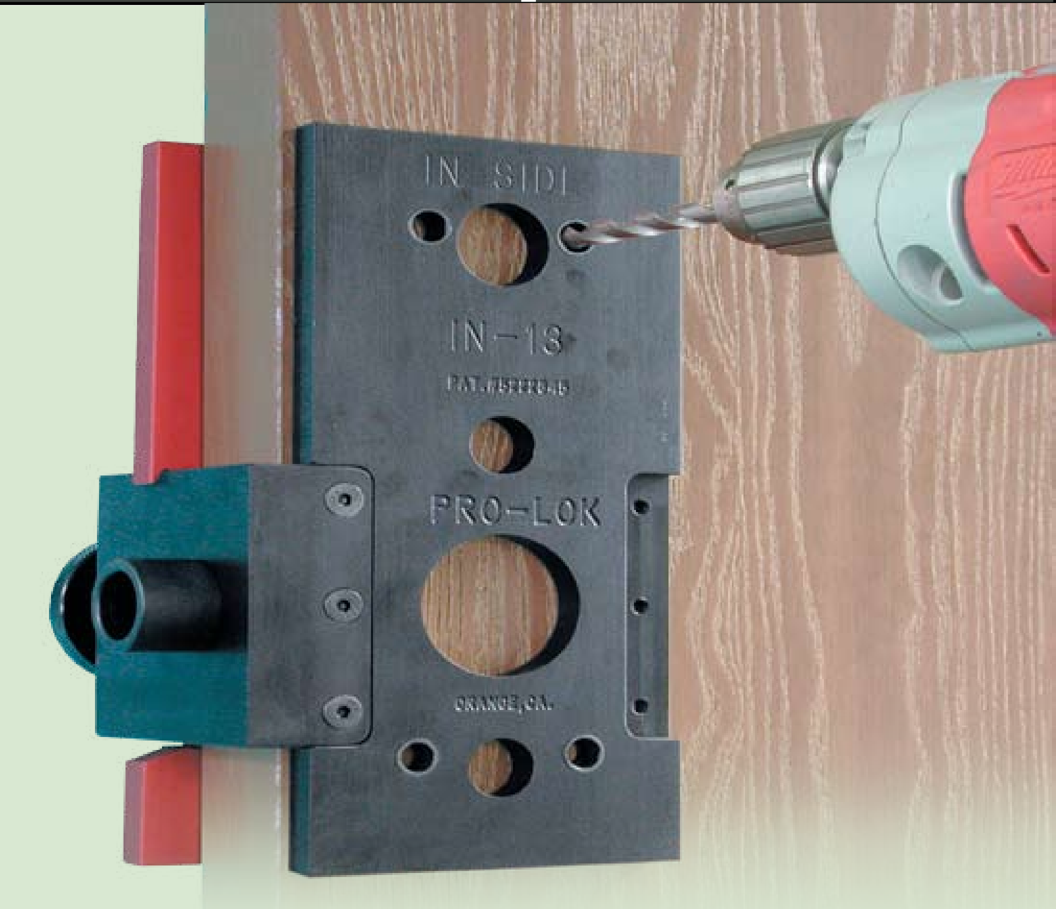

Fluorescent Blank Tag System
LT423

Highlight those frequently used or specialty keys. Used behind the key hooks on your keyboard. 3 fluorescent colors; fluorescent pink, orange and yellow. Set contains 96 blank tags.

Installation Templates

Who can install a vertical rod panic bar and outside trim in less than 1 hour?

You can … with the PRO-LOK® IN-Series Templates. Easy-to-Use, fast, precise and durable. We have assembled a group of installation templates that are all used with our Universal Clamp. You will get exacting accuracy and finished work in the same time as it takes others just to set up. Every time you use a PRO-LOK® template, your installation time will be faster, your installations more precise and professional looking. Time is money. The PRO-LOK® IN-Series Templates may be the best investment you ever make! *Reverse templates are available for the back side of the door. You can cut your time in half by not having to switch over when you are done with one side. Reverse templates also prevent splintering the back side of the door when drilling..

Lightning Fast Lock Installations!

Universal Clamp

INCL

The cornerstone of our Professional Installation Series. Holds all our specialty templates without damage to the door's finish. Complete with an easy to use 1-1/2" sure-grip knob. Designed to align templates on a 1-3/4" door with a 2-3/4" backset.

Backset Adapter

INCLA

The INCL is designed to align the templates on a 1-3/4" door with a 2-3/4" backset. The INCLA adapts the INCL to align the templates on a 1-3/8" door and will also align the template with a 2-3/8" backset.

Router Bit

INBIT

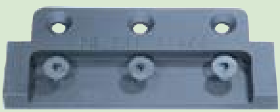

May be used with all templates, but especially designed for use with IN30 & IN30A for installing the popular Von Duprin 99 series exit devices. Works with a plunge router and is perfect on wooden door applications.

Backset Adapter

INEXT3

Use with INCL to prep door for $3^3/_4$" backsets.

Backset Adapter

INEXT5

Use with INCL to prep door for 5" backsets.

What makes the PRO-LOK Killer Jig so special?

Pro-Lok®' decided to design our new Killer Jig for many reasons. We felt that a professional high quality jig was needed that was both light in actual weight while maintaining the high quality that professional installers expect. Also, versatility and speed were important qualities that we wanted to incorporate into our design. As a result, Pro-Lok® is proud of our latest addition to our installation tool line of products.

Killer Jig Kit

INJIG-KJ

Best results, accuracy & most of all efficiency with our New Lock Boring Installation Jig... Always! Kit includes: Killer Jig, both 2-1/8" & 1-1/2" cross-bore spur bits, 1" edge-bore bit, strike locator, 4 different heavy duty latch and faceplate mortise tools, unique deadbolt height gauge and custom molded carrying case.

INJIG Replacement Parts

Heavy-Duty Strike Plate Marker

INJIG-100

Replacement part for INJIG-KJ. Tool for marking the wood frame for mortising many standard deadbolt strike plates.

Heavy-Duty Latch Marker

INJIG-101

Replacement part for INJIG-KJ. Tools for marking the wood door for mortising many standard deadbolt and latch face plates.

Heavy-Duty Deadbolt Marker

INJIG-102

Replacement part for INJIG-KJ. Tools for marking the wood door for mortising many commercial deadbolt and latch face plates.

Heavy-Duty Lip Strike Marker

INJIG-104

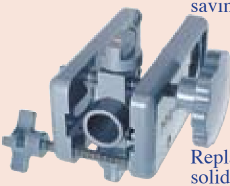

Replacement part for INJIG-KJ. Tool for marking the wood frame for mortising many standard dead-latch strike plates.

Quick Change Adapter

INJIG-106

Replacement part for INJIG-KJ. Chuck this adapter into your drill once and you can quickly change you spur bits and auger bits without chucking, un-chucking and re-chucking them into your drill, saving you valuable time.

Killer Jig Only

INJIG-108KJ

Replacement part for INJIG-KJ. Quality solid construction, easy backset changing, easy to change hole sizes, rubber pads to protect door, large comfortable knobs, easy door thickness adjustment, durable powder coat finish.

Heavy-Duty Carrying Case

INJIG-114

Replacement part for INJIG-KJ. Custom molded case with heavy-duty Polyura-foam interior to protect and store your tools.

Strike Locator

INJIG-116

Replacement part for INJIG-KJ. After the 1" edge bore is drilled, insert the Strike Locator into the hole, close the door, press the Strike Locator towards the door frame and the sharp center piece marks the frame where to drill for proper latch or deadbolt alignment.

Heavy-Duty 1-1/2" Multi-Spur Bit

INJIG-118

Replacement part for INJIG-KJ. Our quality spur bit will last longer and cut more holes. For use on locks requiring 1-1/2" cross bore on wood doors.

Heavy-Duty 2-1/8" Multi-Spur Bit

INJIG-120

Replacement part for INJIG-KJ. Our quality spur bit will last longer and cut more holes. For use on locks requiring 2-1/8" cross bore on wood doors.

Heavy-Duty Auger Bit

INJIG-122

Replacement part for INJIG-KJ. This 1" bit is used to drill the edge hole for most deadbolts and latches on wood doors. This bit also drilled the hole in wood frames for the deadbolt or latch.

1-1 /2" Bushing Plates

INJIG-124

Replacement part for INJIG-KJ. this hardened plate is used for locks requiring a cross bore of 1-1/2".

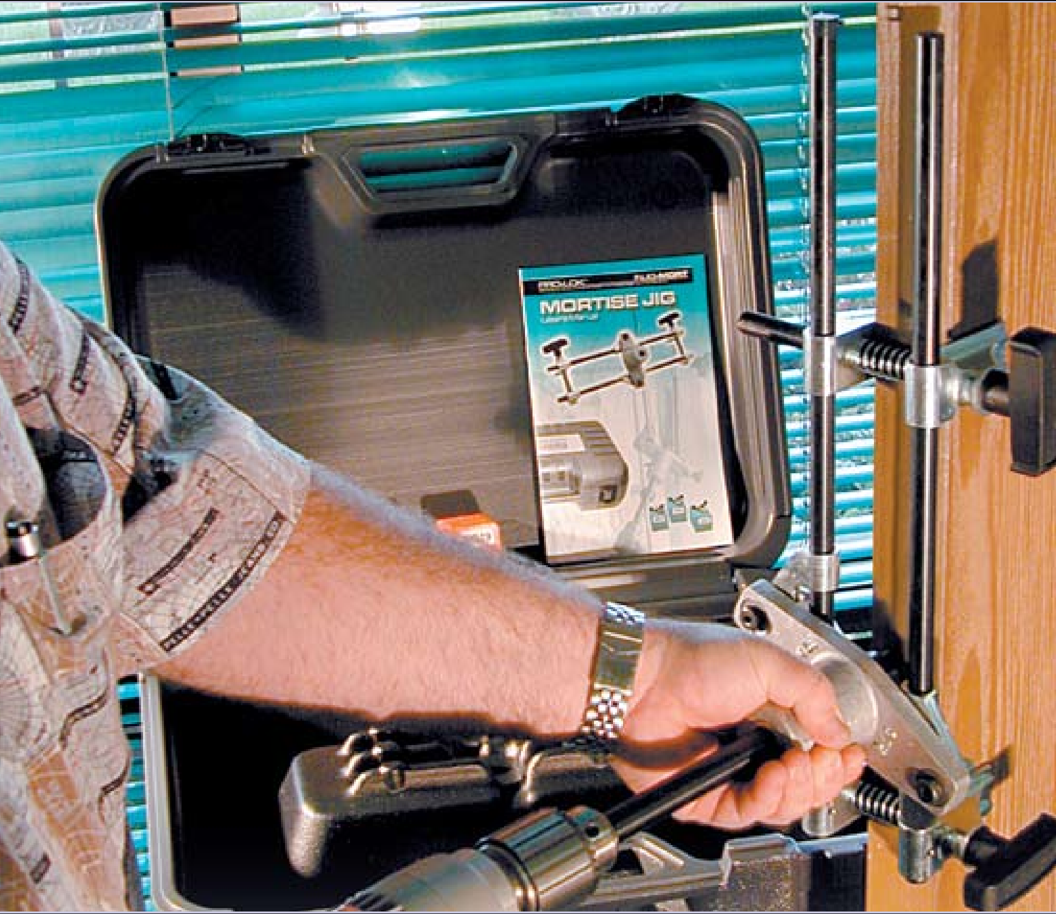

2-1 /8" Bushing Plates

INJIG-126

Replacement part for INJIG-KJ. The hardened plate is used for locks requiring a cross bore of 2-1/8".

Mortise Jig

Guts a lock mortise in under 5 minutes!

The new jig incorporates unique Quick Change Cutters which allow the cutters to be changed in seconds, without removing the jig from the door. This means that both the full lock body and face-plate can be cut out with ease. The mortise hole is automatically centered on the door and accurate results are obtained every time. No other combination of tools can produce such fast and accurate mortise installations. The jig and its precision cutters will cut a mortise in hard wood, soft wood, composite doors and with the use of special cutters, aluminum doors as well, all in under five minutes!

Mortise Jig

Mortise Lock Installation Jig

INJIG-MORT

Installation Jig for Mortise Cylinders
Includes: carrying case, aluminum housing with hardware, 3 cutters (WB22, WB25, & WB27), self-centering action, stops, long boring shaft and instructions.

Locksmith Tools

PRO-LOK® offers a variety of locksmith tools to make your jobs easier and more efficient. Each and every tool is designed or field-tested by locksmiths worldwide. Each tool is consistent with PRO-LOK®'s reputation and desire of providing the industry with the highest quality tools available. From automotive related tools to impressioning tools. From code machine accessories to cylinder followers, the variety of tools offered by PRO-LOK® are a collection of suggestions and ideas from our locksmith friends worldwide.

The Unlocker
LT115
Used to pick the vast majority of after market steering wheel locking bars. Perfect for when the lock is facing away from you. Simple and easy to use.

The Unlocker Pick
LT115P
Replacement pick for LT115.

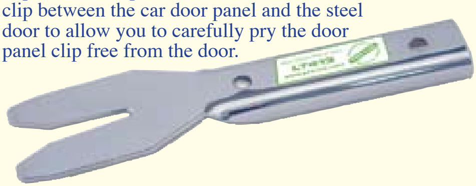

Stramer Remover Tool
LT216
Removes the lock plate retainer ring on the GM "Square Column" vehicles.

Clip-Zip Door Panel Tool
LT410
A must have for the automotive locksmith. Removes clips on the door panel without damage. Separates door panel from door body without damage to panel or clip.

Flat Door Panel Tool
LT413
This chrome plated steel "spatula" style door clip remover slips around the base of the door clip between the car door panel and the steel door to allow you to carefully pry the door panel clip free from the door.

Face Cap Removal Pliers
LT450
Remove face caps from domestic and foreign auto locks safely and trouble-free. Just one of this tool's many uses.

Window Crank Tool
LT460
Slips behind window crank and removes spring clip. Makes manual window crank removal easy and risk free.

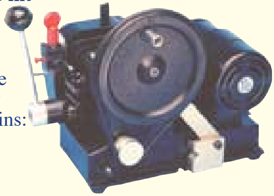

Face Cap Clincher Tool
LT740
Quickly and easily crimp the tabs on replacement auto lock caps of GM, Nissan, older Toyotas, and others.

4 Piece 1200CM Upgrade kit

LT1200

Double the speed of the HPC 1200CM key machine with this kit. Quick & easy 10 min installations! contains:
LT1200DP LT1200FG
LT1200KS LT1200SP

Lock & Safe Scope

LT1202

This scope throws a strong beam of light, great for reading wafers and safe work. Made of impact-resistant plastic. Comes with 3 tips, carrying case, batteries, and bulb. Put one in each truck.

Depth Cam Feed

LT1200P

Moves the key vise from the fully retracted position to the cutting position in 1/4 turn. Why crank the wheel 10 times? Replaces the depth crank handle. Lever handle quickly and easily ndexes depth.

Replacement Bulb

LT1202B

Replacement. bulb for LT1202 Lock & Safe Scope.

Flip Gauge

LT1200FG

With this flip gauge attachment you can gauge the shoulder from the front without risk of injury.

HeadSpec's

LT1240

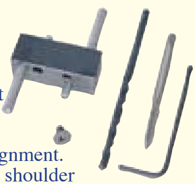

Impressioning Magnified. If you can't see it... You can't impression it! Multi-Purpose Head-Wearing Magnification Glasses with Dual Light Sources! 4 different magnifying choices and 2 lights built all in one HEADSPEC. Just flip the lens of your choice in any combination to achieve the magnification level necessary for the task at hand. Magnifications available: 1.8x, 2.3x, 3.7x & 4.8x. Ideal for impressioning, close observations, precision inspections, miniature parts, assembly, coins, stamps, checking circuit boards, reading resistors, detail work, reading and much more! Uses 2 AAA batteries (not included) per light.

Key Stop

LT1200KS

Set up your 1200 to use either top or bottom without having to adjust spacing. This stop allows parallel top and bottom shoulder alignment. Parallel jaws permit bottom shoulder gauging on many keys, saving time and misaligned keys.

KeyCheck™

LT300

Ideal tool to train on key blank identification. Forms & holds the keyway on any sample key and allows you to match the right blank every time.

IC Reykey Ejector Pin

LT341

Pushes caps, springs, and pins into the removable inspection plug or empty plug chamber

Quick Space

LT1200SP

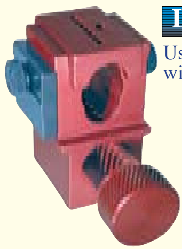

One rotation of the Quick Space is the same as 5 rotations of the factory hand crank. Greater control in faster time.

IC Reykey/Decoder Dump Tool

LT340

Several tools in one. Clear chambers and decode. Chamber cap and retainer sleeve staking feature. Holds the key cylinder and provides a place to dump the pins for decoding or disposal. Also acts as a holding fixture for rekeying.

IC Reykey Staking Pin

LT342

Used on cylinders with chamber caps.

Shop Tools

Follower Master Pin

LT370

A versatile follower that can be used for removal of upper chamber master pins (up to .100) with a quick twist. Can also be used for standard rekeying tasks. Red anodized, machined aluminum to exacting tolerances.

Follower Set -4 pc

LT371

4 different colored aluminum follower tools to easily identify diameter. Two standard size followers, one small and one large diameter combine to offer a set that will service almost any pin tumbler lock. Also available individually.

Follower-Small pin & Peanut

LT371-395

Diameter=.395 Used for most small pin tumbler rekeying jobs. Uses include: Corbin small pin, Eagle small pin, Yale small pin and Ilco 'peanut' cylinders and others.

Follower Standard

LT371-495

Diameter=.495 Standard rekeying tool with two different end configurations. Uses include: Arrow, Schlage, Kwikset, Corbin & Russwin, Ilco, Eagle, Lockwood, Sargent, Weiser & others.

Follower Rim Cylinder

LT371-500

Diameter=.500 Standard rim cylinder rekeying tool with two different end configurations. Uses include: Ilco, Keil, Eagle, Lockwood, & other rim cylinders.

Follower Large Oversize

LT370-555

Diameter=.555 Large Diameter rekeying tool with two different end configurations. Uses include: Corbin & Russwin oversize commercial-industrial cylinders and others.

Pin Tweezers

LT374

Pin tweezers for pinning locks.

Service Call Dispatch Book

LT374

Make it easy to track service calls for dispatch and billing. 3-copy NCR with wrap-around cover.
Give one copy to dispatcher, one to service tech, and retain permanent copy in book. 200 tickets per book individually numbered.

8pc Driver Set

LT470

Heat treated, chrome plated, chrome vanadium steel shafts with magnetic tips. High visibility handle, easy to locate. Net weight 3/4 lbs. (.34kg).

- Curved Hook
- Offset 45° Hook
- 90° Hook
- Straight Pick
- 1/8" Flat Screwdriver
- #0 Phillips Screwdriver
- SD-15 Star Screwdriver
- SD-20 Star Screwdriver

Locksmith Tools

Rhodes Nut Tool

LT500

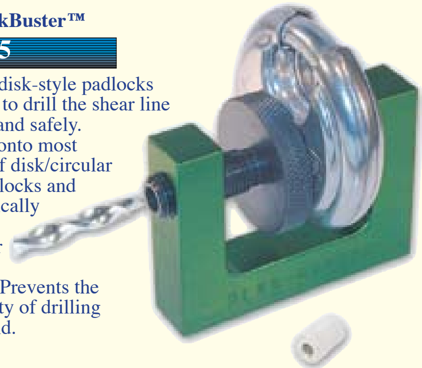

Aluminum tool replaces plastic nut driver that comes with the Rhodes locks. Durable and easy to handle. Ideal for high volume retrofit jobs. Saves valuable time.

The DiskBuster™

LT605

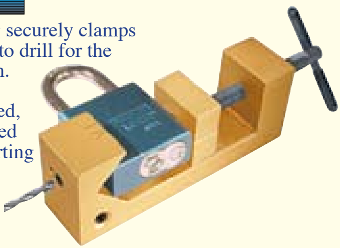

Secures disk-style padlocks in a vise to drill the shear line quickly and safely. Clamps onto most brands of disk/circular type padlocks and automatically centers the shear line for drilling. Prevents the possibility of drilling your hand.

PadLock Drill Jig

LT612

Remarkable drill jig securely clamps rekeyable padlocks to drill for the retainer screw or pin. After cylinder is removed and serviced, padlock can be reused by tapping and inserting screw in hole. (See the optional attachment LT612DG).

Padlock Drill Guide

LT612DG

Used to drill the security nut on the bottom of some padlocks. Adjustable to lock body size. After cylinder is removed and serviced, replace the nut and reuse the lock.

Tubular Impressioning Tool

LT705

Aluminum impressioning tool for 7-pin center tubular locks. Corrosion resistant aluminum alloy. Attractive blue anodized finish. Use with LT705 file only.

Standard Impressioning Tool

LT700

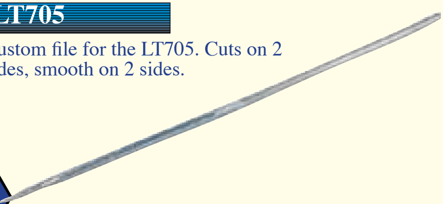

Impression tool for pin tumbler and wafer locks using a true centerline action. Easy to grip, fits hands comfortably, securely holds the head of the key.

Tubular Impressioning File

LT705

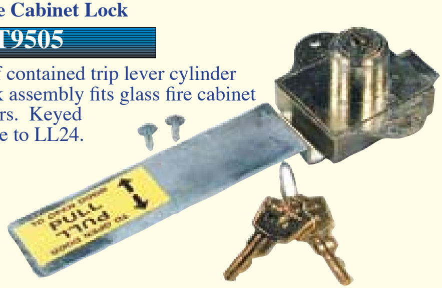

Custom file for the LT705. Cuts on 2 sides, smooth on 2 sides.

Fire Cabinet Lock

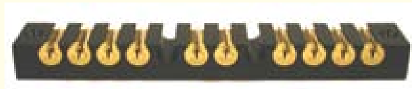

LT9505

Self contained trip lever cylinder lock assembly fits glass fire cabinet doors. Keyed alike to LL24.

Auto Opening & Lock Serv. Manuals

PRO-LOK® The best in the business!

PRO-LOK® car opening manuals are the best selling manuals in the industry. Each page is devoted to one vehicle and contains complete information on the tool and technique required to open the vehicle. If you want crisp clear photos, yearly updates and easy to follow instructions; these are the manuals for you. Each opening method is field tested by our own technicians. Every major model is included. Vehicles are cross referenced by model and manufacturer. Foreign and domestic vehicles included.

The Best Damn Car Opening Manual Period!

MABDVOL2006

Get Your Damn Book Today!

After over 15 years of research PRO-LOK introduces "The Best Damn Car Opening Manual Period!"

ONE BOOK - All in One - All You Need

- Easy to Find Manufacturer. Each manufacturer is a different color tab. For example, the Acura section is red, Audi is blue...
- Easy Page Numbering Format. Each model is together, consecutively. This set up is so easy a table of contents is not necessary.
  for example: Mustang page 01 covers 1965 – 93
  Mustang page 02 covers 1994 – 97
  Mustang page 03 covers 1998 – to current
  if changed, page 04 will show the new opening method.
- Easy to Update.
- Alternate Methods. You don't have the right tool? Are you having trouble opening the car? At the bottom of each page, we provide you with an alternate opening method or tool if we have one.
- 3 Ring Binder
- Entire Book in Full Color
- High Quality Gloss Paper
- Cross Reference Index
- Tool Index
- Over 900 Pages
- Over 580 Models
- Over 40 Manufacturers
- Over 600 Alternate Methods
- Over 2900 Full Color Photos
- Over 200 Full Color Illustrations
- Covers 1980 - 2006

Samples pages are not to scale. Page size is 5 1/2"(w) x 8 1/2"(h)

***Sample Pages** (not to scale)*

HONDA

Odyssey 02

YEAR: 1999 –
LINKAGE: HORIZONTAL
PICK: CCW
TOOL: AO-01 "Slide Lock Tool"

PREFERRED OPENING METHOD

This model was redesigned in 1999.

1. Insert a wedge at 8" from the rear edge of the window glass of the front passenger door.
2. Insert an inspection light and identify the white plastic guard plate surrounding the vertical rod. Observe the upper and lower gap, in relation to the guard plate mounting screw. The tool may be inserted in either gap.
3. Flex the "U" end of an AO01 "Slide Lock Tool" out 15ϒ. Insert the AO01 at 6" from the rear edge of the window glass, tip facing rearward. (Photo 2)
4. Lower the AO01 11" into the door cavity. Rotate the tool 30ϒclockwise (upper gap) and 45ϒ(lower gap). Lift the tip of the tool and manipulate through either gap. Rotate the tool 20ϒcounter-clockwise and position the tip of the tool under the button head. (Photo 3)
5. Lift the button head gently to unlock the door.

ALTERNATE OPENING METHOD

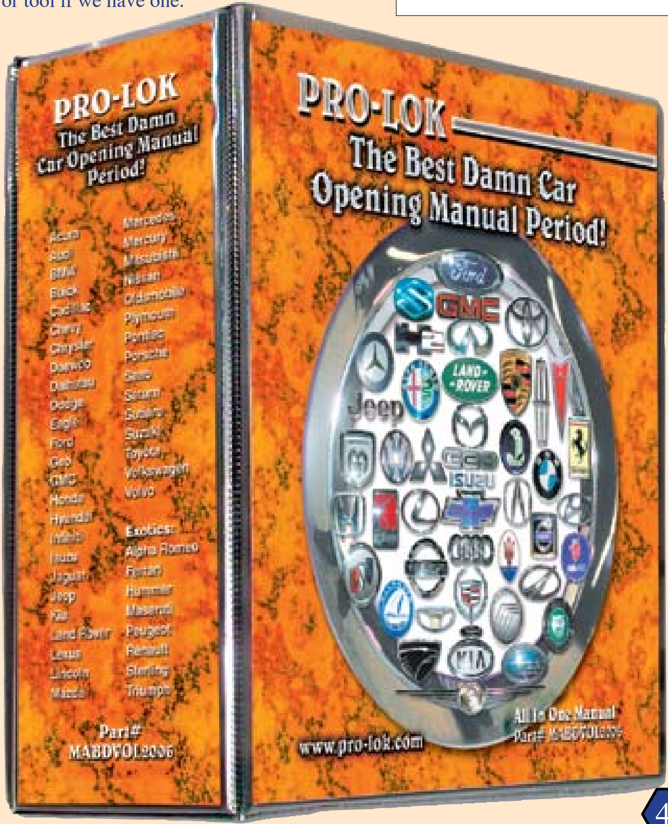

1. Insert a Pump Wedge at 13" from the rear edge of the window glass of the front passenger door. Inflate wedge.
2. Insert an AO34 "MCOT-Narrow Tool" at 6 1/2" from the rear edge of the window glass, tip facing rearward.
3. Lower the AO34 12" into the door cavity and rotate it beneath the bottom edge of the window glass. Deflate wedge.
4. Lift the tool, gradually working the tip of the tool into the vehicle interior. Rotate the tool 45ϒclockwise and position the tip of the tool under the lock-unlock button. (Photo 4)
5. Lift the lock-unlock button to unlock the door.

Lock Picking Tools

Highest Quality Picks!

It's not as easy as it appears in the movies! There is no question that picking locks is an art/skill that requires an enormous amount of practice. PRO-LOK® may not be able to provide you with the time required to learn this art, but we can provide you with the highest quality tools to get the job done. Education on how to pick a lock that consists of not only the fundamental basics of how a lock works but expands into the reason why locks are pickable was our goal when we created our full color picking manual. Couple this education with the proper tools and you are well on your way to more successful picking skills. Whether you are looking for individual replacement picks or a complete kit, PRO-LOK® has the tools to meet your needs. The variety of our specialized picks will also meet the additional requirements to expand your arsenal of picking instruments. When needing picks, pick PRO-LOK®. Our picks are available individually or in sets. Various styles and shapes available. Pick guns, ace picks, padlock picks, tubular picks, shims; you name it… we've got it! All picks are manufactured from the finest full hard spring stainless steel.

Premium Pick Sets

Pick Set 11 Picks & Case

PKX-11

This popular set set includes 3 picks with stainless steel handles, 3 standard picks, a double ended slim line pick, broken key extractor and 3 tension wenches in soft luggage quality leather snap case..

Premium Picking Tools

7-Pin Ace Pick

PKX-A1

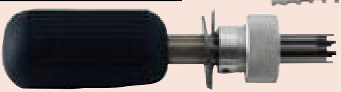

The PRO-LOK 7-pin Ace Pick is a precision tool designed to easily open any standard 7-pin center Ace type lock. Set tension insert and rotate back and forth until the cylinder turns. Simple to use. Comes with depth decoder. Features a hard steel body with smooth sliding picking needles, knurled brass handles & vinyl sleeves for those who prefer the feel of rubber handles.

8-Pin Ace Pick

PKX-A3

The PRO-LOK 8-pin Ace Pick is a precision tool designed to easily open any standard 8-pin center Ace type lock. Set tension insert and rotate back and forth until the cylinder turns. Simple to use. Comes with depth decoder. Features a hard steel body with smooth sliding picking needles, knurled brass handles & vinyl sleeves for those who prefer the feel of rubber handles.

Pick-Gun-Manual

PKXGUN-M

This is the best pick gun available. Used by locksmiths everywhere, the pick gun allows you to pick a wide variety of locks. Comes with three tips and tension wrench. Lifetime warranty.

Padlock Shim Picks

PKPS

Shim Picks for padlock opening (20 pcs) 4 sizes, 5 of each type. Designed for use on many padlocks with spring operated shackle latches.

Deluxe Ace Pick

PKA2

Locks can be picked by 2 methods (each pin individually or all at once). Picks left hand, right hand and center. Comes with its own decoder. Manufactured out of aluminum and 12L14 steel, with 1095 carbon spring steel picks. Glossy black anodized finish. Comes in a custom wooden storage box specially designed to protect your tool to last a lifetime. *Similar to the old "Lee Pick".

Pick-Gun-Electric

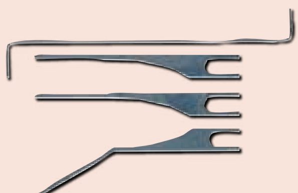

PKXGUN-E

Our electric pick gun is constructed of aircraft aluminum and hard steel. Unlike other picks, ours is powered by conventional "C" cell batteries, so you never need to worry about replacing expensive battery packs or throwing away the tool when it will no longer take a charge. Includes 4 picks, 3 tension wrenches and 2 adjustment wrenches.

Pick-Gun Replacement Picks

PKXGUN-RP

Replacement picks for PKXGUN-M or PKXGUN-E.

Warded Padlock Picks

PKX-WP5

Use to pick warded padlocks. 5 pc pick set.

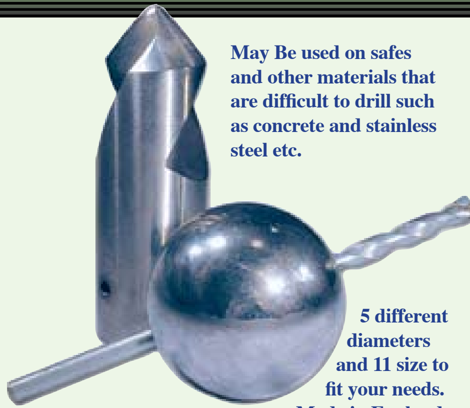

What is so special about PRO-LOK®'s "BUTTER BITS"?

Would you imagine you could drill a 3/8" hole in a piece of hardplate from a Mosler TRTL30 in 38 seconds? Would you like to be able to use one bit and be able to drill 25 holes in a piece of GSA hardplate in only 7 minutes? You can now do this and more with the incredible Butter Bits from PRO-LOK®.
These Tungsten Carbide "Butter Bits" feature a special tip design. The tip uses a unique negative rake angle and a shortened chisel edge that increases it's effectiveness and reduces tip failure. PRO-LOK®'s Butter Bits, will benefit the locksmith who encounters hardplate while drilling safes.

Butter Bits are Better Bits!

May Be used on safes and other materials that are difficult to drill such as concrete and stainless steel etc.

5 different diameters and 11 size to fit your needs. Made in England exclusively for Pro-Lok®

Retail- Retail- Retail

Consumer products are a great way to entice customers into your store. Set up attractive pegboard displays, end cap displays, counter-top displays or window displays. Stack safes in colorful packaging right near your door to catch the attention of passers by and potential customers. Put keychains near the cash register for those impulse purchases. Make attractive header cards to catch their eye and to prompt the customer to purchase something that he may have never thought that he could get at a lockshop. Get their attention and keep them coming back for more! All of our retail products are attractively packaged for individual sale.

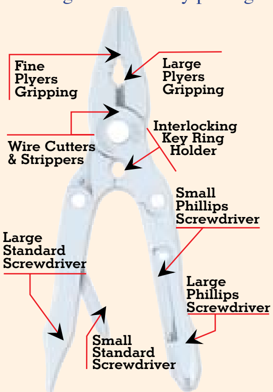

Retail Items- Key Chains

7 Multi Purpose Tools

KC-K7 Key King

Key rings contains 7 handy tools. Tools lock in horizontally in handle so they will not collapse during use. Lightweight - will not weigh down key ring-Weighs only 1.4 ounces. Solid construction made of hardened stainless steel for durability. An incredibly strong product. Tool can withstand 90 lbs of down force on handles. Rivets will shear before handles or jaw will break. Wire cutter can easily cut 12-gauge electrical wire. Exclusive locking design. Jaws are perfectly aligned to illustrate quality. End of fine pliers can be used as tweezers. Shape tool like a "T" for maximum torque. Compact and comfortable to use. Teflon coating protects metal against acid (sweat) in your hands. Also has a self-lubrication feature, the more you use the tool, the smoother it will work. Comes with protective pouch and interlocking key ring holder to attach easily to your key ring. Lifetime warranty. Attractively clamshell packaged for retail display to increase impulse sales. Boxed in a counter top display containing 6 individually packaged tools.

Slotted
Electronic Safe

GLSF-08S

Depository safes are designed to provide immediate and secure storage for cash, and miscellaneous valuables. When the door is locked, deposits can be made via a deposit slot. Simple solutions are often the best. When a business needs to stash away cash or valuables during working hours, a depository safe provides convenience and short-term security on the premises. Cash trays can easily fit inside the safe for storage. For limited space or smaller storage capacity requirements, provides solid protection in a small package. This safe is designed for small businesses or vehicles which need to store cash or receipts until the daily bank deposit. This safe is very popular for small retail stores or small volume fast food operations. Storage capacity is 1150 cubic inches and weighs 35 pounds.

- Compact Size:
- Easy to program & change your own combination in seconds!
- Electronic security lock.
- Manual override key function.
